Climb to New Heights!

Wireless Control of Cameras, Transporters, & Reels

K2 offers various mounting options to meet your needs!

K2 Base Station features built-in diagnostics for the entire system, including the camera, transporter, and video cable. The portable K-2 video cable reel features automatic payout to minimize cable drag on the self-propelled transporter / camera to maximize pull distance in the pipe and can operate the full line of CUES transporters.

The K2 reel control console includes variable speed control, automatic levelwind, and an emergency shutoff. Increased video cable reel capacity for 1200 ft. of high strength video cable is provided to maximize distance for each inspection run. Transport handles are built into the K-2 with an option for a collapsible heavy-duty handle and semi-pneumatic wheels to facilitate portability.

The K2 Base Station can be mounted on the built-in docking port of the video cable reel or staged independent from the reel. It includes a built in video overlay unit with programmable observation codes, alpha-numeric titling, and an on-screen footage display. K2 series options include Granite XP asset inspection / decision support software and DVD or digital recorders.
