MODEL 400 ECO

BEST PRODUCTS, BEST LOCAL SUPPORT

400 ECO

Mini Combination
Sewer Cleaner

The Model 400 ECO Mini Combination Sewer Cleaner from Sewer Equipment CO. of America by Sewer Equipment is the RIGHT SIZE, RIGHT FIT combination sewer cleaner for any municipality or plumbing contractor looking for a truck complete with compact footprint, powerful vacuum and robust jetting capabilities.

**RIGHT
SIZE,
RIGHT
FIT**

NO CDL REQUIRED

Ideal as an emergency response vehicle or for small to mid-size municipalities and contractors as no CDL is required due to a 19,500 GVWR chassis

MANEUVERABILITY

Ideal in densely populated urban environments where standard trucks are difficult to maneuver

OVERALL FOOTPRINT

Ideal for entering standard 8 foot clearance parking structures due to being substantially smaller than a conventional combination sewer cleaner

GETTING STARTED

Ideal for small to mid-size plumbing contractors and municipalities looking to add a vacuum component to its overall services

PIPE DIAMETER

Ideal for 4" to 12" lines

STAINLESS STEEL CONSTRUCTION: Debris tank, water tank, hose reel and full shroud

DEBRIS TANK: 4 yard capacity with stainless steel construction

WATER TANK: Up to 600 gallon capacity tank with stainless steel construction

WATER PUMP: UDOR 18 GPM @ 4,000 PSI

VACUUM SYSTEM: Hibon Positive Displacement blower @ 28" Hg with 4" system

HOSE REEL: 1/2" hose @ 400' hose with stainless steel construction
