

RAMVAC

Model 2000 Catch Basin Cleaner

www.ram-vac.com

The RamVac 2000 Catch Basin Cleaner is the safest and most effective system to clean debris from sanitary and storm sewer manholes. Other applications include the cleaning of catch basins, lift stations, telecommunications vaults, skimming grease from disposal digesters, sand, gravel, camp latrines, and all general vacuum conveyance work. The Ramvac 2000 is available in 3 or 6 yard configurations to meet your needs.
